Performance Tasks as a Part of REACH Students

REACH Performance Tasks are one of two student growth measures used in teacher evaluation.

**Elementary:** Grade 3-8, English, Reading & Math teachers

**High School:** Core Subject teachers

**Elementary:** Teachers of all other subjects and/or grade levels, plus Teacher Librarians

**HS:** Teachers of non-core subjects

- **Teacher Practice:** CPS Framework for Teaching
- **Student Growth:** NWEA MAP (Elem) or EPAS Expected Gains (HS)
- **Student Growth:** REACH Performance Tasks

75% of the evaluation is based on Teacher Practice, and 15% is based on Student Growth for both Elementary and High School levels.
